Beta blockers mnemonics :

Complete antagonists :

our crazy pharmacology doc gaves like a 3456789904532 drugs to memorize so I took out his *NEC*k , yea . ... I *STAP*ed him with *M*y *B*lade

" *M*y *B*lade *STAP*ed *NEC*k "

1 . M > metaprolol

2 . B > bisoprolol

3 . S > stalol

4 . T > timolol

5 . A > atenolol

6 . P > propranalol

7 . N > nadolol

8 . E > esmolol

9 . C > carvedilol

****

Now our new doc is being friendly he gave us 3 drugs to memorize , for me I can consider him as a *PAL*

1 . P > pindolol

2 . A > acebutolol

3 . L > labetolol
